Lynda / Ned,

My staff indicated that the net was given to Greg Nagle on September 28, 2016 at 8:45 AM for him to return to Ned. See attached Daily Field Record documenting the hand off.

Thanks,

Marc

Tony/ Marc.

Could you confirm location and availability of the Net for the July 5th sampling event?

Subject: Net loaned to BP contractors at Leviathan last June

Hi Lynda,

When we did the Leviathan stream invertebrate sampling last June we lent one of our 250 micron D nets to the BP contractors for them to use when they did the September sampling on their own. The plan was they were to leave it at the Leviathan office trailer on site. Can you check with AMEC or whomever runs the onsite work to make sure the net is there? We will need it on July 5th when we start the sampling.

I will be very busy with NAUM work and a class at the Lab between now and July, so I won't be able to follow up on this personally. If the net has gone missing we should find out ASAP so Amy at the lab can order a new one.

Thnx,

ned
